

# Product Standards Committee Meeting Agenda

Friday • April 16, 2010 • 8:30 AM - 5:00 PM  
Embassy Suites • Independence, OH

1. Introductions
2. Approval of the Agenda
3. Review and approval of the 11/18/2009 PSC Meeting Minutes
4. Seal Control Board Liaison (Ron George)
5. Code Update (Rand Ackroyd)
6. Standards Update Chart (Steve Hazzard)
7. Harmonization Efforts - CSA & ASME (Steve Hazzard)
8. Nomenclature Update (Ron George)
9. Standard 1003- Is there a need to include sizes larger than 3" into the standard? A question came in from Colorado that an inspector would not approve a job that had a 4" Watts PRV since it did not have an ASSE Seal. I wrote a letter to Watts but received no response.
10. Should we move ASSE Standard 1021 to inactive status or withdraw the standard? There are no listings to this 2001 standard and have not had any listing requests in over seven (7) years.
11. What should be the correct way to reference industry standards within the ASSE standards? Some presently read: "Reference to industry standards shall mean to the latest edition of these standards".
12. Engineering report regarding sillcocks, ASSE 1019 devices (see attachment)
13. Old Business
14. New Business
