Job Opening at American Society of Sanitary Engineering (Staff Engineer)

Westlake, Ohio, Jan. 25, 2012 — The American Society of Sanitary Engineering (ASSE), a standards developer and certification body within the plumbing and mechanical industry, is currently seeking a qualified candidate to fill the position of *Staff Engineer*.

Principal duties of this position include:

Review of product listing applications and laboratory test reports for technical content and completeness; review of modification requests; factory and laboratory audits; assistance with maintaining accreditation to ISO Guide 65 / CAN P-3-G; development and revision of test reports for standards; coordination of the development and revision of standards; provide technical review of standards; and field technical questions from manufacturers, laboratories, code officials and the general public, among other various tasks.

For more details about this position, including principal duties, required qualifications and preferred qualifications, [click here](#) or follow the above link.

To apply, e-mail your cover letter and resume to: ken@asse-plumbing.org. Please denote 'STAFF ENGINEER' in the subject field.

The position will remain open until filled.
