3.6.3  Criteria
Failure of the device to reduce the flow at the outlet to 0.5 GPM (1.9 L/min) or less for devices
3/4 inch (19.0 mm) and smaller, and 1.0 GPM (3.8 L/min) or less for devices larger than 3/4 inch
(19.0 mm) and larger prior to the outlet temperature at T3 exceeding 120.0 °F (48.9 °C) shall result
in a rejection of the device.
